2nd September 2002

To: HL
Bishop Macram Max Gassis
Bishop of the Diocese of Elobeid
P.O Box 21102
Nairobi – Kenya

Your Lordship,

Sub: Request for teacher training and referral hospital

The authority of the Nuba Mountains region is aware of the enormous work the Diocese of Elobied is doing to alleviate the suffering of the people of the Nuba Mountains during the most trying times which no other NGO has ventured to accomplish. Despite the presence of NGOs in the area we believe that hope for sustainable rehabilitation and development lies in the church.

While we must commend the Diocese at this point for the priests sent to assist the Nuba community, the water program and schools opened to educate children, at the same time we want to request the Diocese to complement these services with the following needs in the region.

1. One major problem that besets education is qualified teachers and the only guarantee for sustainable education is to train teachers. We are therefore, requesting the diocese to open a teacher-training school.
2. Despite the primary health care services provided by NGOs there is no referral hospital. We request the Diocese to establish a small referral hospital with laboratory and theatre for minor operations.

We thank you for your understanding and will offer any assistance we can for the success of the two projects.

May God bless the good work done.

Sincerely yours,

CDR. Abdulaziz Adam Alhulu
Secretary Nuba Mountains Region.

Abdulaziz Adam Alhulu
